2020-2021 eğitim-öğretim yılının 2. Dönemiyle okulumuz ilk defa bir eTwinning proje ortaklarından oldu. Aynı anda 2 eTwinning projesi yürütülmektedir. İlk projemiz öğrenciler ve okul çevrelerinde doğanın bilincini yükseltmeyi hedefleyen 'Hello Earthling!' projesi 11 Türk okul, 2 İspanyol, 1 İtalyan ve 1 Portekiz ortak ile birlikte yürütülmektedir. Öğrencilerimiz her ay aynı tema üzerinde farklı çalışmalar yapmaktadırlar. Mart ayı içerisinde ettikleri Kızılçam tohumlarını proje sonuna kadar fidan haline getirerek okulumuzdaki doğaya olan sevgi ve bilinci artırmayı amaçlamaktayız.

İkinci projemiz olan 'Saint Francis and his message' İtalya'da bulunan bir teknik ortaokulla birlikte yürütülmektedir. Bu projede ise öğrenciler kendi tarihlerinde buluna ve tüm dünya tarihinin yönünü etkilemiş büyük liderlerini tanıtmaktadırlar. Bu projede tanıtmak için öğrencilerimiz Türk tarihinin en önemli liderlerinden biri olan Ulu Önder Mustafa Kemal Atatürk'ü seçmişlerdir. Bu kapsamda hayatını, liderlik rollerini, tüm dünya tarihindeki etkisi, ilham olduğu diğer toplumları en etkili şekilde hazırladıkları sunumlarla projede sunmuşlardır. Projelerimiz 2. Dönem sonuna kadar devam edecektir.

Projede yer alan okulumuz öğrenciler: MUSTAFA TAŞCI, İMEN HAMAM, DERYA BAŞKURT, ELİF KÜLEK, DENİZ VARLIK ERDEM, BORAN ŞEFİK TUNÇ, İBRAHİM KAHVECİ, DİDEM APAYDIN, HAMİDE ABO AHMED VE CEYLİN NAZ AYHAN, HALİL İBRAHİM DÖNMEZ.

Hello Earthling!

The Earth has many beautiful and beneficial sides for human beings; but still there are lots of people who are not aware of these beauties. Even people who live in nature are not interested in the tree getting older next to their house, the bird building his nest on their roof or the plant growing on their soil. With a broad range of students, we would like to raise awareness about how to live the nature, how we can be useful to it and what it gives us to survive. During the project students will have the opportunities to use English in many creative ways.

There are lots of images of Gaziantep, but I chose the one above, which I took, I want to show the other side of this city. Because the city's cuisine such as baklava, kebab and beyran comes to many people's mind when Gaziantep papers in your conversation. However, this city has very rich historical heritage coming from the ancient times. You can see many mosaic works in this city if you visit one day. You can walk in the narrow streets as if you were living in the old town. There is the most known bazaar where lots of people from

One of them is a parade with giants and big-heads.

Sonia Critto, "Don E. Ferraris" secondary school, Cigliano - ITALY

Our territory is located in a west-northern region of Italy; its name is Piedmont that means at the foot of the mountains. And this is the wonderful view we can admire every day in every season of the year when we move from one to the other of our small towns: the Alps. Actually our territory is flat and agriculture is the main activity the local people do, mainly fruit, some vegetables and cereals. However, each of our villages also have very strong traditions and an old history, we try to maintain alive through various culture events and school projects like our eTwinning project.

offer you great summer memories and in winter, a tea glass accompanies you while you are enjoying the perfect view of Istanbul.

Montemor-O-Velho, Portugal

It is a city with a castle, surrounded by rice fields, next to the Mondego river. It is located very close to the mouth, Figueira da Foz next to the Atlantic Ocean.

Gaziantep Turkey**

The school was built in 2015. The school was named after the pilot Cengiz Topel, who was very successful in Turkish Air Force. 29 teachers are teaching to totally 584 students today. There are 14 classrooms, one seminar hall and a P. E. room. Besides two eTwinning projects, we are trying to make many projects with the students. The aim is to provide a better learning atmosphere for a better generation. Therefore, we usually keep track of the students learning process

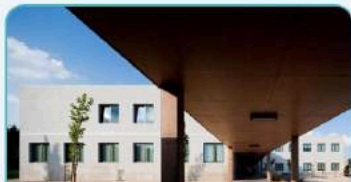

old together with one unit of 2-3 year old (first cycle) and twelve units of Primary Education in two separate buildings, one for each stage. We provide a comprehensive education with the support of various teachers with specialisations in English, music and physical education.

right in the left top corner of the building. There is a gym, a small library, an art lab, and ICT labs; in the front courtyard students spend their lunch break. We like taking part in challenging projects and competitions: sport races (volley-ball, athletics, football, swimming), art contests, chess tournaments and digital, innovative activities.
